#### Tube Size Options

To view tube options where applicable, use the custom search at the top of the home page. Key in the bush part number (not Letters) followed by T in higher case.

If an exact match cannot be found, it may be possible to sleeve down or bore out a shock eye to suit an available bush.

Most 'Cotton Reel' bushes are designed to elongate when fitted. For example 0476 uses a 16mm tube and elongates from 36mm to 38mm when fitted.
