

SuperFlex Universal:

Hot rod & Kit car products

SF0478 Range

The SF0478 is of tried and trusted Triumph Spitfire and Herald front wishbone origin. It has in the past, and still is being applied to kit car manufacture. This is the smallest wishbone bush that we stock, and we recommend this for lightweight cars of less than 1000Kg.

An assembly lubricant sachet is included: One for every eight assemblies.

Part Ref	Description	Notes
SF0478P-**	Polyurethane 21mm OD Top Hat Bush Only e.g. 80 shore would be SPF0478P-80	Flange is 4.25mm thick x 26.55mm OD
